### Advantages of Taking Courses in Implant Training :

- Led by one of the pioneers in dental implantology in Indonesia
- Much simpler, exclusive and private training (limited to 6 participants), giving full attention to participants
- With live surgery, more patient applications, and interactive discussion
- Practical theories, up-to-date with the trainers' tips and tricks applicable to everyday practices
- Shorter period of time and more efficient way of learning
- The training takes place at Implant Center where implant patients are handled regularly
- Taught by Hendra Hidayat Implant Center team, part of the leaders of dental implantology in Indonesia
- Students have the opportunity to discuss and consult beyond the training schedule. Continuing education in other topics or oral implantology is also available and participants who now join can have special benefit if interested.

### Day 1

- Implant Anatomy : Sinus Maxillaris & Canal Mandibularis
- Mandibular Block Anesthesia
- Incision, Flap design & Suturing ( Hands-on dummy)

### Day 2
